

Evgeny Vendrov

Seeking Student Software Engineer Position

Address Dereh Ha Zoinut 73/5, Ariel

Phone 054-682-0707

E-mail evgenyv94@gmail.com

Date of birth 12/10/1994

GitHub <https://github.com/EvgenyVendrov>

Dynamic, young and **motivated** student, with **lots of energy** and will to learn and evolve, as I take my first much awaited step in the industry.

Education

10/2017 - 06/2020 **BSc. in Computer Science and Mathematics**
GPA: 82
Relevant courses finished: Algorithm 1 (84), Data structure (82), OOP in Java language (91), Computer networks (98)
Ariel University

Software Projects

- 1) **https://github.com/EvgenyVendrov/OOP_Assignment3**
A Java project, which was made as an assignment in OOP in Java language course.
This project is a **GIS movement simulation** taking part above Ariel University’s Aerial photography, the movement simulation is based on an **algorithm developed by me and my assignment partner**.
You can also export **KML** files to demonstrate movement paths which Google Earth can display (using JAK library), in addition – all classes are tested with **JUnit unit testing** and documented with **JDOC**.
- 2) **<https://github.com/EvgenyVendrov/matala2CPP>**
C++ project which is an implementation of Binary Search Tree, including **unit testing** and **Makefile**.
- 3) **<https://github.com/EvgenyVendrov/myJavaChat>**
Java chat based on **TCP sockets**, includes **unit testing**.

Technologies

Java - OOP, OOD, unit testing, working with threads, JDBC, core java, java.net	<div><div></div></div>
C/C++	<div><div></div></div>
Python	<div><div></div></div>
Bash Script	<div><div></div></div>
GitHub	<div><div></div></div>
Linux - mainly ubuntu 16.04 and 18.04	<div><div></div></div>
MySQL	<div><div></div></div>
MongoDB	<div><div></div></div>
WireShark	<div><div></div></div>
